Tallen Builders, LLC  
2531 NW 35<sup>th</sup> Street  
Ocala, FL 34475

Dear Terre and Steve,

I want to take a moment and officially thank you for completing our office project. From the very beginning, when we selected your firm, we were comfortable with working with you both.

I appreciate your timely attention to the details of the construction, selection of sub-contractors and especially the on-site supervision by your employed supervisor. Having the supervisor on site every day was a lifesaver. John and I have built several projects ourselves. This was the first time we had hired an actual builder for a project. The daily supervision was comforting and allowed us to continue working on our business without interruption.

I had concerns with having a builder, other than ourselves, to supervise the quality of the construction. I could not be more pleased with the outcome! The building is beautiful. Working with you has truly made building the new office a "no hassle" experience. I would highly recommend Tallen Builders to anyone planning new construction both residential and commercial.

Sincerely,

A handwritten signature in black ink that reads "Connie". The signature is written in a cursive, flowing style.
